## **Aliant Battery and Baumer at Agritechnica 2025**

**Imola, Tuesday, October 21, 2025** | Aliant Battery, a brand of ELSA Solutions SpA, is pleased to announce its partnership with Baumer at the next edition of Agritechnica, scheduled for November 9-15, 2025, at the Hannover Exhibition Center (Germany). The company will be present as a co-exhibitor at the ELSA Solutions stand (Hall 17, Stand A43).

The collaboration with Baumer, a globally recognized brand for excellence in sensor technology and automation, represents a solid and lasting partnership for Aliant Battery and ELSA Solutions.

“We are thrilled to share the exhibition space with Baumer, our strategic partner in the development of efficiency- and innovation-oriented solutions for the agricultural sector and beyond,” says Davide Dal Pozzo, CEO of ELSA Solutions SpA.

Baumer technologies, integrated into ELSA Solutions, contribute significantly to the creation of advanced, reliable, and sustainable systems for modern agriculture.

The joint presence at Agritechnica 2025 represents an opportunity to strengthen this synergy and present cutting-edge solutions for the agricultural industry and sustainability, with a particular focus on energy efficiency and automation.

ELSA Solutions and Baumer invite all industry professionals to visit Stand A43 – Hall 17 to discover the latest technological solutions and discuss the challenges and opportunities facing the industry with our experts.
